

WARWICK SEWER AUTHORITY REPEAT VIOLATOR FINE SCHEDULE

In an effort to deter companies from repeatedly violating their reporting requirements and/or permit discharge limits, the WSA has created and implemented the following fine schedule.

Offense	Fine
First	None
Second	None
Third	\$50.00
Fourth	\$100.00
Fifth	\$200.00
Sixth	\$400.00
Seventh	\$800.00
Subsequent Violation	Fine Doubles

Essentially, the permittee will be allowed to receive two Notices of Violation without penalty (i.e., minor/inconsequential violations of the load limits, late notices of <30 days). A third violation will constitute a \$50.00 fine, fourth violation a \$100.00 fine, fifth violation a \$200.00 fine and so on. With each subsequent violation the fine will double.

Please be advised, the aforementioned fine scheme in no way relieves the Permittee from additional or escalated enforcement action(s) as deemed necessary by the WSA. Additional or escalated enforcement action(s) that may be taken in response to Permittee non-compliance include, but are not limited to: Notices of Violation (NOV), Significant Non-compliance Violation (SNC), Administrative Orders (Cease and Desist, Consent, Show Cause, Compliance), Administrative Fines (up to \$25,000.00 per day/per violation).
